Project Narrative *

CEIC is going to be hosting a one day workshop that is designed for the GIS professional. Below is information on what the workshop will cover.

Analyzing Census and American Community Survey Data in GIS

This 2-part session will explore Census geography basics, political versus statistical geography, TIGER/Line shapefiles as the source for analysis. We will discuss selecting the proper data, the sources of Census and ACS Data, and preprocessing issues.

The second half will feature demonstrations of live census data in ArcGIS. We'll explore joining census data within GIS, conducting proximity analysis using block-level population counts, and thematic map representation of census variables.

Project Start Date *	Monday, August 13, 2012
Project Completion Date	Tuesday, October 23, 2012

Applicant Resources to be committed to this project* We would like to post this event on the MAGIP site and have MAGIP provide help with the event registration.
